Evaluation of [REDACTED] 25X1X71

25X1X71

1. [REDACTED]
is of limited value to M/Ag. Most of the material is abstracted from secondary sources, and in many instances the primary sources have been exploited by M/Ag prior to receipt of the "Summary."

2. It is suggested that the adoption of a more rational scheme of format organization would substantially increase the usefulness of this publication. The present format inhibits rapid perusal of the "Summary".
